

Marina Towers - Beirut Sea Front, Lebanon. High thermal see-through roller shades, concealed inside easy-mount head box.

Solar Shading Solutions for Sustainable Building Design

MechoShade represents the worldwide standard of excellence for interior architectural solar shading products. The company's products are used every day by leading architects and designers on diverse projects including corporate offices, cultural institutions, healthcare facilities and high-end residential projects.

MechoShade's products have been incorporated in buildings that have been rated by the US Green Building Council's LEED Rating System.

TechnoShade, the "Natural Light Management" expert, is a leading company operating in the Middle East and Mediterranean area, providing a variety of "Window Covering" products all designed to provide energy efficiency, glare control, privacy and comfort inside the building.

Through its partnership with MechoShade Systems Inc. and exclusive representation in Lebanon and nearby countries, TechnoShade stands out as the specialist in Roller Shade technology.
